

Project Demo Planning

Date	12 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

The project demonstration is planned to present the Credit Card Approval Prediction system in a clear and organized manner. The demo covers the problem statement, system architecture, live application workflow, machine learning prediction process, deployment, and future enhancements. The objective is to demonstrate the complete functionality of the system and highlight its practical applications.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project, objectives, and problem statement	2	Self
2	System Architecture	Explain the architecture, workflow, and technologies used	3	Self
3	Live Application Demo	Demonstrate data input and credit card approval prediction	5	Self
4	Model Performance	Present accuracy, evaluation metrics, and testing results	2	Self
5	Deployment	Show the live application deployed on Render platform	2	Self
6	Future Enhancements	Explain scalability, future improvements, and conclusion	1	Self

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for automated credit card approval prediction.
2	Solution Overview	Describe the machine learning model, Flask application, and deployment architecture.
3	Live Feature Demonstration	Enter applicant details, generate prediction, and display the approval/rejection result.
4	Q&A Session	Answer evaluator questions and discuss future enhancements.
